-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/30/2005 has been entered.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-6 and 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sato et al (JP 2002-014474 in light of its English language machine translation).

Sato et al disclose a pattern forming method including a lower layer film having a novolak resin wherein the resin comprises a naphthol novolak meeting the instant claim limitations. The resin may also comprise additional monomers in combination with the naphthol monomers such as those of formula 13 (used in the comparative example). The reference also teaches a pattern forming method meeting the instant claim limitations. Therefore, it would have been obvious to one of ordinary skill in the art to prepare the material of Sato et al choosing to employ a phenol monomer in combination with the preferred naphthol monomers with reasonable expectation of achieving a material having high etch resistance.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sue et al 6,329,492, 6,713,589, and 6,207,789 are cited for disclosing similar polymeric materials.
